## STUDIO

### How to write a design brief?

Get started writing your design brief...	
Renovation or new build?	
Location?	
When are you hoping to have this project finished?	
What is the budget?	
How much if any of the job would you like to do yourself? (eg. demolition, selecting materials, project management)	
People living/using the home? (Any plans for new additions or frequent family members staying?)	
What features of your new home are non-negotiable? (eg. separate living + dining room, a spare bedroom etc).	
What features of your new home would be desirable but not essential? (eg. a butler's pantry)	
Have you any idea if your project will require council approval? (If not, consult your builder or draftsman when you get to it).	
Consider how you use each room. What works and what doesn't?	Kitchen -
	Living -
	Dining -
	Bathrooms -
	Bedrooms -

To untangle your project with some help, book in your 30 minute free chat with Emily via the MARG. Studio website.
